

Bars and circles adjust size as bottom slider is moved

Click to display the words that make up this category.

And/or – click for a word cloud? (which might replace entire lyrics section)

Color encoded in gradient ("worst," "best") – not shown here very well

Slider that can be resized (brushing). Default to 1 year when first open.

Selector for what displays in timeline (only 1 can be selected)

☒ Recessions  
☐ Unemployment

Detail of the economic data – do we need this? Or replace the bottom one with this?
